Widom-Larsen theory in Nov. 2012 issue of *Discover* magazine

- ✓ A two-page, well-researched article about the Widom-Larsen theory of LENRs has been written by an independent science journalist/physicist and published in *Discover* magazine's "Big Idea" section as follows (print version is presently available on newsstands):
"Bring back the cold fusion dream – A new theory may explain the notorious cold fusion experiment from two decades ago, reigniting hopes of a clean-energy breakthrough"
By Mark K. Anderson
Discover, pp. 10 - 11 (November 2012)
- ✓ Update as of October 23: a free hyperlinked electronic version of this article can be read online at the following URL:
